***Allowable Subject Matter***

1. Claims 2-11 and 13-17 which have been renumbered as 1-15 respectively are allowed.

2. The following is an examiner's statement of reasons for allowance: Regarding claims 1-15, the prior art of record fails to teach of a data transmission system comprising a response to web page retrieval request packets, transmitting locally generated object retrieval request packets to a server to retrieve the corresponding object data packets and selectively transmitting the locally stored web page data packets and at least a portion of the locally stored object data packets in bundled form to the subscriber unit side of the wireless link. The closest reference, Hsu (U.S. Patent No. 6,374,079), teaches of a data transmission system including a wireless link for transmitting packets between an end user machine and an Internet Server that houses content in the form of web pages, the wireless link comprising a mobile subscriber unit coupled to the end user machine and a base station coupled to the server and in radio communication with the subscriber unit, a selected web page and intercepting the retrieved web page and locally storing the web page, but fails to teach of a response to web page retrieval request packets, transmitting locally generated object retrieval request packets to a server to retrieve the corresponding object data packets and selectively transmitting the locally stored web page data packets and at least a portion of the locally stored object data packets in bundled form to the subscriber unit side of the wireless link. Additionally, Doviak et al. (U.S. Patent No. 6,418,324), teaches of a data transmission system including a wireless link for transmitting packets between an
